Essential Rider Equipment

Luggage Clothing Essentials Battery Care Security

'07

Oxford Products was founded in 1973 in the world famous University City of Oxford by a group of enthusiasts. Today Oxford Products is still staffed by active enthusiasts who test and develop the product range. Our experience in the market enables us to offer the best advice, customer service and knowledge. Furthermore, we take pride in using the products ourselves.

We are UK market leaders in motorcycle security and touring products and successfully export to over 50 countries worldwide. Our experience in producing products which can withstand the rigours of motorcycling has also enabled us to develop a range of class leading security and touring products for cycling and other outdoor activities (see separate brochures).

When you choose Oxford Essential Rider Equipment you get products which are tried, tested and guaranteed to provide quality and durability.

Oxford Essential Rider Equipment is going from strength to strength, as you can see from our impressive new purpose-built facilities.

Sports Lifetime Luggage

www.oxprod.com

ALL MODELS COME AS STANDARD WITH THESE FEATURES

General Information

- Read the user recommendations carefully before use to enjoy this luggage to its full capacity.

OXFORD LIFETIME LUGGAGE is designed by motorcyclists in the UK. We are so confident of its quality and durability that we guarantee it against faulty manufacture or materials for Life! The Lifetime guarantee does not, however, extend to rain covers, buckles and zip tags, which are covered under our usual 12 month warranty. Because we ride bikes we understand that motorcycle luggage needs to be adjustable, so that it can be fitted to a wide variety of machines and must be made from durable, weatherproof material. It also needs to offer decent carrying capacity and to look good. We are never complacent and every year we build more features into our designs which is why we are Europe's first choice for motorcycle luggage.

With Oxford Luggage you get everything you need: straps, buckles, bungs, raincovers, instruction leaflet and a lifetime guarantee.

And of course, the best luggage in the world is available in all the right colours...

3D styling

Easy-to-grab ziptags

Storm Covers

- Lire le mode d'emploi avant d'utilisation.

OXFORD LIFETIME LUGGAGE est dessiné par des motards du Royaume-Uni. Nous avons tant de confiance en sa qualité et sa durabilité que nous le garantissons à vie contre défaut de fabrication ou de matériel. Pourtant les housses, les boucles et les étiquettes en caoutchouc sont garanties pendant seulement 12 mois. Voir nos condition de garantie ci-dessus. Car nous sommes des motards nous-mêmes nous comprenons que la bagagerie de moto doit être ajustable pour une grande variété de motos et doit être fabriquée à partir du matériel durable et étanche. De plus elle doit offrir une bonne capacité et avoir une bonne apparence. Nous ne sommes jamais contents de soi et chaque année nous développons encore plus les dessins et c'est pourquoi nous sommes le choix no. 1 d'Europe pour la bagagerie de moto.

Strong Carry Handles

- Bitte lesen Sie die Bedienungsanleitungen bevor Sie die Taschen benutzen.

OXFORD LIFETIME LUGGAGE wird von britischen Motorradfahrern entworfen. Wir sind so überzeugt von der Qualität und Haltbarkeit von diesen Paktaschen, daß Wir eine Lebensgarantie sie für gegen defekte Herstellung oder Material anbieten. Diese Garantie gilt aber nicht für die Regenhauben, Schnallen oder Gummi-Etiketten, die eine einjährige Garantie haben. Sehen Sie oben unsere Garantiebedingungen. Weil Wir selbst Motorradfahrer sind, verstehen Wir, daß Motorradpaktaschen verstellbar für eine große Auswahl Maschinen und aus haltbarem, wetterfestem Material sein müssen. Sie müssen auch ein anständiges Fassungsvermögen und ein gutes Aussehen haben. Wir sind nie selbstzufrieden und jedes Jahr versuchen Wir unsere Designs immer mehr zu verbessern. Das ist warum Wir die Spitzenfirma Europas für Motorradpaktaschen sind.

Bobbins

Bobbin & Frame Forks

Frame Forks must be fitted to the rear paddock stand before bobbins can be used.

Features: Bobbins

- Makes fitting a rear paddock stand to your bike much easier and quicker
- Does not mark the bikes swingarm
- The majority of bikes have pre-drilled holes in their swingarms to fit bobbins (consult your bike manufacturer for the best and thread size required for your bike)
- Some bikes have universal swingarms, making the use of bobbins the only way to safely fit a rear paddock stand

Codes

Replace your standard indicators with these beautifully crafted, miniaturised, high performance components.

A battery of high intensity Light Emitting Diodes (LEDs) put basic, low wattage bulbs in the shade.

Their remarkable 9,000 MCD (900 candle power) of lighting energy is optimised by a new 'Honeycomb' lens technology, to optimise your visibility when manoeuvring.

As well as their bespoke design and enhanced performance, Oxford Eyeshot LEDicators boast a much longer life-span than conventional bulb-lit indicators, so you can spend more time enjoying your bike and less time maintaining it.

Breathable & Wind Resistant

Chill-Out...a unique range of clothing to protect against all weather conditions

Essential Advanced Rider Wear

OXPROTEX® boasts the following characteristics:

- **Breathable:** Rapidly 'wicks' away perspiration.
- **Waterproof:** Completely impermeable membrane keeps you dry & comfortable.
- **Windproof:** Dupont® membrane keeps the chill out!
- **Thermal fleece:** Warm, soft lining fleece for optimum warmth.

GENERAL INFORMATION

ALL CHILLOUT CLOTHING IS UNISEX

Two-wheel transport can provide some of the most hostile environments the human body ever has to encounter. At 0°C, the wind chill factor at just 24mph is approximately -16°C. Add to that the impact of rain at high speeds and it is easy to see how a rider's concentration could be severely affected.

The all-new **OXF099** ChillOut range of Essential Lifetime Clothing uses the very latest in sportswear technology to keep riders warm when it is cold and cool when it is warm, helping them to keep their concentration focused on the road rather than on their discomfort.

OXPROTEX is an extraordinary material, both tough and gentle at the same time. Waterproof, Windproof and Breathable, it also has an insulating Thermal fleece lining, which is gentle on the skin. **OXPROTEX** is used on **OXF099** ChillOut clothing wherever there is a risk of wind chill or rain affecting the rider.

Dupont CoolMax® has legendary properties as a breathable material, capable of 'wicking' away more liquid from your skin than your body can produce. **OXF099** ChillOut clothing uses CoolMax® wherever perspiration is most likely to be - for example, where material is pressed constantly against the skin, on the back of a shirt or around a mouth.

Lifetime Guarantee: this is a unique sign of our confidence in the quality of the materials and workmanship, which go into every piece of **OXF099** ChillOut clothing. We do not claim to make clothing that will last forever and cannot guarantee against reasonable wear and tear, but we do insist that every article should be free of material or manufacturing faults for life!

Miscellaneous

Essential Battery Optimisers

Maximiser 360T

Multi-purpose Advanced Automatic Battery Optimiser

Triple mode, 7 stage charger

1. **Tests** battery connection polarity
2. **Analyses** your battery and diagnoses condition
3. **Recovers** gently even heavily discharged batteries
4. **Bulk charges** low batteries quickly
5. **Checks** voltage retention
6. **Advise**s battery condition
7. **Maintains** battery with a low current if the voltage drops below a set limit

This product also boasts the following unique features:

- **Charge Mode Option** allows you, at the press of a button, to choose between 3 charge rates for MOTORCYCLE (600mA), CAR/BOAT (3600mA) and BOOST (for AGM batteries and cold weather charging)
- **Backlit LCD Display** shows real-time charging rate. It shows both battery charge voltage and amperage
- **Battery Condition Adviser** shows if the battery is able to hold charge or is in need of replacement
- **Free Wall Bracket** and extra long cables make for ease-of-use in your garage

Protected against short circuits

for 240V

Now with **FREE Wall Bracket**

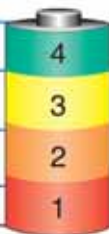

- Plug-in Battery care for 12V lead-acid batteries up to 30Ah
- Suitable for all 12V battery types up to 30Ah including: Gel, MF and acid batteries
- Recovers deeply discharged batteries
- Protected against short circuit
- 2 year guarantee

BATTERY CHARGED AND READY TO GO.

BATTERY LOW - OXIMISER WILL RECHARGE AND OPTIMISE

BATTERY IN CRITICAL CONDITION - OXIMISER WILL TRY TO RECOVER

BATTERY IRRECOVERABLE

Quickly charges battery at 600mA/hour until full and maintains a gentle trickle charge to keep battery optimised

Essential Battery Optimisers

Battery types and charge MODE selection advice

Battery size (Amps/Hr)	MODE	Typical charge time (hrs)
1.5		2.5
7		11.0
10		16.0
14		3.5
20		5.5
50		14.0
80		22.0
100		27.0
125		34.0

MODE	Typical charge rate
	14.4V / 600mA For batteries under 13.5Ah
	14.4V / 3600mA A common charge rate for Lead Acid, MF and GEL batteries
	14.7V / 3600mA Suitable for charging AGM batteries that require a higher charge voltage. Especially useful for charging batteries in freezing weather

Typical Applications

Solariser Essential Solar Battery Optimiser

- Solar battery charger for maintaining 12Volt Automotive batteries all year round
- Perfect for where there is no mains power source
- Ideal for vehicles left outside or in remote lock-ups where the Solariser can be left outside or attached to a window or garage roof.
- LED light shows battery will charge with available light
- Operates in extreme temperatures -20°C to 100°C

Code
OF949

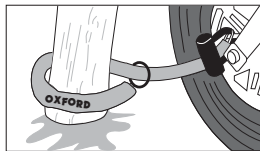

The facts about theft

Motorcycle theft remains a growing problem, both in the UK and abroad. Every year more motorcycles are stolen, more motorcyclists are disappointed and inconvenienced and even more is spent on anti-theft insurance policies.

- It takes approximately 12 seconds to steal an unprotected motorcycle
- A motorcycle is stolen on average every 14 minutes
- Approximately 100 motorcycles are stolen every day
- Less than 14% of stolen motorcycles are recovered
- Theft accounts for one third of insurance claims

UNBELIEVABLY...

- More than half of all motorcyclists neglect to use any form of motorcycle security!

Always secure your bike with the lock positioned off the ground

5 minute attack tested

Advice

According to Police statistics, 50% of bikes are stolen by the opportunist or "Joy-rider". Incredibly, they also estimate that 50% of riders do not lock their machines. Reduce the risk of theft by following these simple steps:

- Buy the best lock you can afford and always use it
- Alarms can be very effective but they are only really effective used with a lock
- If you have a garage, always use it and remember to lock the bike and set the alarm - otherwise cover your bike when outside
- When parking your bike try to avoid using the same parking spot every day and lock your bike to a secure immovable object
- Never leave your lock resting on the ground and always lock it as tight to your bike as possible - this makes it much more difficult for thieves to attack
- Remember to maintain your lock. Keep it free from dirt, and oil moving parts regularly. If your lock stops working, you won't be able to lock your bike

UK Insurance security approvals

Oxford security products are tested to extremes in order to offer the appropriate level of protection.

SOLD SECURE
APPROVED PRODUCTS

Sold Secure is an independent, non-profitmaking organisation dedicated to reducing the risk of theft by testing security products. The same methods of attack used by criminals on the street are replicated by Sold Secure in the assessment of security products.

Many insurance companies offer substantial reductions to those who use SOLD SECURE APPROVED PRODUCTS.

www.soldsecure.com

Other International approvals

Oxford offer a range of security products which have been tested and approved to various international security standards.

Insurance discounts available

The Thatcham Institute for Vehicle Security is recognised by insurers as the UK's leading tester of vehicle security products.

Products with the Thatcham label have been demonstrated to comply with The British Insurance Industry's Criteria for Vehicle Security - the toughest set of standards ever to be applied to motorcycle locks and alarm/immobilisers. As a result, many insurance companies offer significant discounts to those who use these Thatcham Approved Products.

Oxford SPORTS HUMBPACK

CONTACT: 0870 990 9622

Escamote panniers are well made and do a great job. The straps are a bit of a pain at first, but work fine. Compare them with the four bungee straps and your luggage will be very secure. Our road tester was impressed and said he couldn't tell the panniers were there - it was a similar story for others. Getting to your kit is easy and the waterproof flaps will fit an unprotected similar bagged (see desertspoons). Comes with good cleaning handles, padded shoe slots and no-leak straps.

Oxford FIRST TIME £59.99

CONTACT: 0870 990 9620

Quick and easy to fit using the four bungee straps supplied, and they hold the bags onto the bike well, allowing little movement - our road tester didn't report any problems. Access to your kit is simple with the bags opening up nicely. The storm hood kept all the water out during the waterproof test; unprotected, the panniers leaked five desertspoons. Pillion access to footpogs is OK; testers could still get heels over. The First Time luggage is expandable and comes complete with shoulder straps.

Staff luggage

Not always sexy but totally essential, this is the staff luggage the Editor staff put their carrying faith in.

Why? Staff luggage is a bit of a niche market, but it's one that's growing. It's not just for the Editor staff, but for anyone who needs to carry a lot of gear. The Oxford First Time is a great choice for its size, weight and expandability. It's also very secure, with a strong lock and a sturdy frame. The Oxford Sports is another great choice, with its expandable design and strong construction. The Oxford Rainex Cover is a great choice for anyone who needs to protect their gear from the weather. The Oxford Deluxe Track Pump is a great choice for anyone who needs to inflate their tires. The Oxford Humpback Tailbag is a great choice for anyone who needs to carry their gear in a convenient and secure way.
